Perfection—redefined.

funkwerk D11

Optimal mobility for discerning users

The funkwerk D11 reinvents cordless business and convenience telephony. Professional speech and messaging functions, ergonomics that are proven in practice and innovative user prompting all form part of a convincing experience.

The handy housing withstands demanding situations. Operating the funkwerk D11 is an everyday pleasure by virtue of the innovative menu prompting with its clear structure and intuitive symbology.

The funkwerk D11 is the ideal terminal for integral and fairnet communication systems. Use at various sites is supported by automatic login. Thanks to universal GAP functionality you can also communicate via the funkwerk D11 with almost all DECT systems and exchanges.

INNOVATIVE MENU PROMPTING

The menu has been developed from scratch and the logical menu structure enables intuitive operation of numerous convenience features.

SIM CARD (MEMCARD)

The funkwerk D11 can copy network information and contact list data of older-generation devices automatically from the SIM cards. This enables devices to be exchanged without the intervention of a technician.
